

FIND DYNAMITE UNDER U.S. RADIO

Army Officer Uncovers Explosive Enough to Destroy Ft. Bliss Tower.

Four sticks of dynamite, 30 feet of United States wire and six dynamite caps were discovered late Tuesday morning under the base of a steel wire tower at Fort Bliss. The explosive was found by an officer who was training his men in entrenchment work near the base of the tower.

The Fort Bliss wireless station is located on the "mother station" for all of the Mexican border west of San Antonio. It connects with the El Paso station at Fort Bliss and relay messages to the smaller wireless stations along the border in this district. It was started in 1916 and has picked up wireless messages from the wireless station at Arlington, Va.

It was found by a soldier named Walter...

He had the dynamite found by accident. It would have been necessary to relay all messages from Fort Bliss through the tower in order to intercept wireless communication along the Mexican border. As far as is known there is no German communication with the tower.

Officers were unable to explain the presence of the dynamite under the steel tower, except that it was placed there with the intention of exploding it and wrecking the tower in order to intercept wireless communication along the Mexican border. As far as is known there is no German communication with the tower.

Texas Cavalry To Train On Mex. Border

Gen. Wolters Tells El Paso Recruiters They May See Overseas Service.

The units of the First Texas Cavalry will undoubtedly be sent to border posts for intensive training, as soon as they are recruited to full war strength, in the opinion of Brig. Gen. J. F. Wolters of Houston. This Texas regiment will probably be federalized in a few months the general said, and then will be subject to overseas duty.

This statement was made to the officers of the regiment who gathered at Houston Monday in the interest of the organization. A. P. Wilson of this city, in captain of the 11th Texas Cavalry, is first lieutenant, and G. F. Gray, second lieutenant. These officers have been sworn into the state service and have received their commissions.

Will Push Recruiters.

Capt. Wilson, who is now in Houston, attended the Houston meeting and returned to El Paso Wednesday. He is enthusiastic over the new regiment and believes they will experience no difficulty in recruiting at least 125 men for the 11th Texas Cavalry. He will be in El Paso Tuesday, and will be in the recruiting office at 311 S. San Francisco street.

Three young women of Houston, giving a series of interesting patriotic exhibitions in the interest of the organization of the regiment may come to El Paso to help in the recruiting.

L. M. CREGOR COMMISSIONED IN MOTOR TRANSPORT CORPS

Lloyd M. Cregor, sales manager of the Southern Motor company, received notice on Tuesday afternoon that he has been commissioned as first lieutenant in the motor transport corps, and has been instructed to report immediately to the officer commanding the motor transport corps of the 1st division at Camp Meade, Md.

Mr. Cregor was an applicant for the position of first lieutenant, but his application was too late. The need for experienced truck men in the new motor transport corps is so pressing that Mr. Cregor's appointment from Washington followed.

He will leave for Camp Meade on Saturday. Mrs. Cregor and children will stay for the period of the war.

British Press More Confident Of A Victory

London Looks Upon Monday's Victory as Hopeful Augury For Allies.

London, Eng., May 1.—(Via Ottawa.)—As details of Monday's fighting are received, confirming the fact that it was the worst day the Germans have experienced since the opening of the great offensive, the English newspapers now comment on the operations in a tone of confidence that they have not hitherto displayed.

The London Times says: "Of all the violent conflicts witnessed in the last few weeks, we know of none which is a more hopeful augury for the allies than this ten mile German failure."

It is pointed out "that the public is apt to reckon victory in terms of offensive success, but a defensive victory like that on Monday may contribute equally toward the ultimate object of the campaign; namely, the destruction of the enemy's fighting strength. From this viewpoint the German, despite their spectacular success, can be regarded as having had the worst of the balance of nearly six weeks' fighting, for it must not be forgotten that the last fortnight a series of disastrous losses of which that of Monday was the most sanguinary had been inflicted."

Complete Failure.

Indeed, apart from the capture of Kemmel, which has been a complete failure, including four separate defeats in pitched battles. These were on Labolette, Jan. 20, the Belgians front at Villers-Bretonneux and Joseph on the Tulle-Verdun. The culmination of the last fortnight has been a complete failure.

The correspondent emphasizes the fact that everything favored the Germans on Monday. They had magnificent artillery support, a favorable fog, innumerable machine guns, masses of men and unlimited explosives, yet they failed after experiencing a day of steady slaughter which only slackened with the fading light.

The British alone between La Clette and Zillbeke defeated five German divisions. They were in the highest terms. They were fighting alongside the British with their batteries firing from the same fields in the spirit of the most loyal cooperation.

British Advance in Mesopotamia.

The Daily News concluded a hopeful editorial on the whole position with this paragraph: "The new British advance in Mesopotamia threatens the most vulnerable heel of the German military system. Things are not going too well in Russia. The fact that Germany waits her prisoners to Russia back on her own terms throws some light on the state of her own power problem. It is clear that Germany's efforts to broaden Holland is working to her advantage. Added to her economic difficulties, Germany has her hands pretty full."

ARMY Y. M. C. A. ANXIOUS TO GET MAGAZINES AND BOOKS

The Y. M. C. A. is making a special effort to secure magazines and books for the army. This announcement was made Wednesday by Tom Nelson, who is in charge of the collecting and reading matter for the western department of the Y. work, located at M. C. A. 114 at Fort Bliss. He said that every one in the city who has any old magazines or books that they are willing to give to the soldiers should have them at the Y. building. If there is a large quantity of books the donor is requested to phone 674 and talk to Mr. Nelson or some of his assistants.

Eight more join army.

Eight more men were enlisted in the army by Capt. W. W. Fenda, local recruiting officer, Wednesday morning: Joe Davis, Hattfield, Ill., signal corps; Robert T. Nix, Zelande, N. M., signal corps; Henry T. Balling, East Las Vegas, N. M., medical corps; James K. Duhan, Chicago, Ill., infantry. For the national army: James A. Oregon, Williams, Ariz., 1st engineers; Joseph Colebrook, St. John, Canada, 1st engineers; Wilbur C. Slevens, Hale Center, Texas, tank corps; Duke Richardson, Clovis, N. M., quartermaster corps, miscellaneous.
